## Camden Hills Regional High School

I. Performance Data on state testing (SAT)

## \% of Students Meeting or Exceeding Standards

|  | READING |  | MATH |  | SCIENCE |  |
| :--- | :--- | ---: | :--- | :--- | :--- | ---: |
|  | Gr 11 |  | Gr 11 |  | Gr 11 |  |
|  | $2011-12$ | $2012-13$ | $2011-12$ | $2012-13$ | $2011-12$ | $2012-13$ |
| Whole School | 61 | 63 | 63 | 59 | 52 | 47 |
| Female | 74 | 67 | 67 | 60 | 49 | 52 |
| Male | 46 | 60 | 58 | 59 | 56 | 43 |
| Caucasian | 60 | 64 | 62 | 60 | 53 | 48 |
| Low SES | 38 | 46 | 41 | 39 | 26 | 26 |
| IEP | 10 | 33 | 19 | 17 | 13 | 19 |

## Summary:

The tables above provide a more targeted illustration of CHRHS's performance data on state assessments (SAT for Reading and Math, and MHSA for Science). Two years of data are shown, 2011-12 and 2012-13. The shaded columns are the most recent test data. It is important to remember that each year a new group of $11^{\text {th }}$ graders are tested, so fluctuations year to year may be due to a different student population than any other factor, although it is a goal for the school is to decrease that variability so that all students consistently achieve at high levels.

Finally, the cells in the spreadsheet that are highlighted in yellow indicate subgroups in our school whose performance was at or below state averages. This is a significant indicator for us because our scores are generally well above state averages as a school. As a baseline, our school typically has an average proficiency rate $10 \%$ points higher than the state, but that can fluctuate by content area and subgroup from below $5 \%$ to over $20 \%$. The Science department is analyzing this data to determine why scores are relatively weaker in that content area.

## II. Teacher Quality Data

Summary:

As you can see in the NCLB Report Card, $56 \%$ of the teachers at CHRHS have coursework or a degree beyond a Bachelor's degree. $28 \%$ hold a Master's degree and 1 teacher has attained a Ph.D. $96 \%$ of the staff is certified to teach in Maine and less than $1 \%$ of core academic classes are taught by a teacher who has not attained a "Highly Qualified" status in that content area.
